Address:Bhimavaram,West Godavari District -534201

CAREER OBJECTIVE:

Motivated computer science graduate seeking an entry-level software development position to apply my knowledge in programming, web development, and database management, while contributing to innovative projects and enhancing my professional skills.

ACADEMIC INTERNSHIPS:

• Artificial Intelligence Intern

IIDT – Blackbucks | Remote | May 2024 – June 2024

Gained hands-on experience in Data Visualization, Machine Learning, and AI concepts. Completed a project titled "Supermarket Sales Analysis", focused on Exploratory Data Analysis (EDA) and creating interactive visualizations using tools like Python and Tableau.

• Web Development Intern

InnoByte Services | Remote | Apr 2024 – June 2024

Successfully completed a web development internship focused on modern front-end technologies.

Redesigned and modernized the website for KingSukh Guest House using HTML, CSS, and JavaScript to improve UI/UX.

Worked on responsive design and optimized the site's layout for better user engagement.

• IIDT – Blackbucks | Remote | May 2025 – July 2025

Rule-Based Chatbot – Interactive Q&A Application

Developed an interactive rule-based chatbot application using Python and the Panel library, designed to respond to predefined question-answer pairs in real-time.

Implemented a clean and user-friendly interface with text input and button controls, enabling smooth two-way communication between the user and the bot. Incorporated event-driven programming to handle user queries, display conversation history dynamically using Markdown rendering, and maintain contextual flow throughout the chat. The application showcases skills in Python GUI development, event handling, and user interaction design.

SKILLS:

- **Web Development:**HTML,CSS,JavaScript
- **Programming Languages:**Python,Java,SQL,C
- **Soft Skills:**Adaptability,Communication Skills,Problem Solving Skills

PROJECTS:

MiniCart 2.0: A responsive e-commerce web application

- Developed "MiniCart 2.0", a responsive e-commerce web application using HTML5, CSS3, and JavaScript (ES6). Implemented dynamic product filtering, price range selection, sorting, and search functionalities to enhance user experience. Designed a clean, mobile-friendly UI with CSS Grid and Flexbox for optimal responsiveness. Integrated WhatsApp API for seamless order placement without a backend. Focused on intuitive navigation, efficient DOM manipulation, and cross-browser compatibility to deliver a fast, user-friendly shopping experience.

Online Voting System:Email OTP based Voting System (Full Stack Project)

- Developed a secure online voting application using **Python and Flask** that allows users to register, verify their identity via email OTP, and cast votes digitally.
- Implemented unique email-based authentication with OTP generation and verification to ensure security before voting. Designed the system to prevent multiple votes from the same user and integrated an admin panel for real-time results display. Built the frontend with **HTML5, CSS3, and Jinja2 templates**, managed data with **SQLite**, and implemented email services using **Flask-Mail (SMTP with Gmail)** for OTP delivery, ensuring robust security through OTP-based authentication and unique vote tracking.

Weather Forecast Application — Using OpenWeatherMap API

- Developed a desktop-based weather application with a user-friendly **Tkinter** GUI to display real-time weather information for any city. Integrated the **OpenWeatherMap API** to fetch live weather data, including temperature, humidity, wind speed, and current conditions. Implemented input placeholders, validation, and error handling to enhance usability and ensure accurate results.
- Built using **Python** as the core programming language, Tkinter for the graphical interface, and the Requests library for **API calls and JSON data** retrieval, providing a responsive and intuitive user experience.

EDUCATION:

BTech,Computer Science and Engineering: SAGI RAMA KRISHNAM RAJU ENGINEERING COLLEGE	2022-2026
• CGPA-7.88	
Intermediate: NARAYANA JUNIOR COLLEGE	2020-2022
• MPC-72.7%	
Secondary Education: NARAYANA E-TECHNO SCHOOL	2019-2020
• Percentage:99%	

CERTIFICATIONS:

- Programming Essentials in Python : Cisco Networking Academy Program
- C++ : Cisco Networking Academy
- AWS Cloud- AICTE EduSkills Cohort
- Web Development - AICTE EduSkills Cohort
